AMENDMENT TO THE CLAIMS

The following is a listing of the claims and their status. Please cancel claims 3 and 10, 11 thorough 13, and 14 through 19, and amend the remaining claims as follows:

1. (currently amended) A method for on-line cleaning of the internal surfaces of selected sections of a hydrocarbon fuel burning gas turbine, during operation, without significant loss of turbine power, comprising the steps of:

contacting the surfaces to be cleaned with a cleaning composition comprising:

expandable graphite particles ranging in size from about 0.01 to about 50,000 microns and capable of expanding up to about 200 times their initial volume when heated above a predetermined temperature;

an oil soluble magnesium carboxylate corrosion inhibitor sold under the trademark LMG-30E [®] having a minimum concentration of [[25%]] 30% magnesium; and an aromatic solvent.

- 2 through 8 (canceled)
- 9. (currently amended) The method according to claim 1, wherein said cleaning composition comprises from about 1.0 wt % to about 3.0 wt % of said expanded graphite particles; and

from about [97] <u>83.3</u> wt % to about 99 wt % of said oil soluble <u>magnesium carboxylate</u> corrosion inhibitor[[.]]; and

about 15.7 wt % of said aromatic solvent.

- 10. (canceled)
- 11 through 13 (canceled)
- 14 through 19 (canceled)
- 20 through 31 (canceled)
